

DIGITAL VOLUNTEER TOOLKIT

NEW COURSE!

Learn how to support people getting online with our new Digital Volunteer Toolkit course.

Accessing Zoom appointments, online classes and video job interviews has never been more important – now you can help people in your community get access to the digital world.

WLM

Transforming Lives since 1887

In our four-session online course we'll cover:

- Why people struggle with technology
- Tools for online support
- Common problems
- Role playing troubleshooting

You don't need to be an IT expert, just have an everyday knowledge of using the internet, email and things like Zoom. It's more important that you are patient and happy to try and work out problems alongside people.
